hvardhanracha@gmail.com | +91 6301221877 | GitHub | LinkedIn

Summary

Aspiring Full Stack Developer with hands-on experience building web applications using React.js, Node.js, Express.js, MongoDB and REST APIs. Strong foundation in Python, JavaScript, SQL and Data Structures & Algorithms, with additional experience in machine learning and TensorFlow. Interested in building scalable AI-enabled applications, backend services and responsive user interfaces.

Education

Jawaharlal Nehru Technological University Hyderabad (JNTUH) *2022 – 2026*
Bachelor of Technology (B.Tech) in Computer Science and Engineering | CGPA: 7.5/10

Narayana Junior College *2020 – 2022*
Intermediate (MPC) | Percentage: 78%

St. John's High School *2019 – 2020*
Secondary School (10th Grade) | CGPA: 9.8/10

Technical Skills

Frontend:	HTML, CSS, JavaScript, React.js
Backend:	Node.js, Express.js, REST APIs, Third-Party API Integration
Databases:	MySQL, MongoDB, PostgreSQL
Languages:	JavaScript, Python
AI / ML:	TensorFlow, CNN, LSTM
Tools:	Git, GitHub, Postman, VS Code, GitHub Copilot, ChatGPT, Claude, Gemini

Projects

Community Care – MERN Stack Web Application *June 2025*
React.js, Node.js, Express.js, MongoDB, Google Maps API

- Built a full-stack web application that helps users find nearby food banks, shelters and healthcare centers.
- Integrated the Google Maps API and location-based services to enable real-time search, navigation and resource discovery.
- Designed and implemented RESTful APIs with Node.js and Express.js for data management, user interactions and dynamic content delivery, backed by MongoDB.

Text-to-Image Generation using Deep Learning *Jan 2026*
Python, TensorFlow, LSTM, CNN

- Developed a deep learning model using TensorFlow with LSTM and CNN architectures to generate images from textual descriptions.
- Implemented text embedding, image preprocessing and feature extraction techniques to improve model performance.

Achievements & Activities

- Solved 200+ Data Structures and Algorithms problems on LeetCode.
- Participated in Hackathon 2025 and built a social-impact MERN application.
- Active member of the Data Science Club, contributing to technical workshops.
